Question:	Please comment on the overall quality of this course and teaching effectiveness of the instructor.
Response Rate:	80.00% (8 of 10)

1	Very interesting class. Teacher is very "knowledgeable and funny. "
2	Interesting, fun course. Instructor was fun and thought in a way that was easy to understand.
3	Mr. Santos made it fairly easy to understand the course material and helped his students if they looked puzzled, which really helped if a student is too shy to speak up.
4	Our class was relatively small, and not to mention it took place in the morning when everyone seems to be extremely tired, but that did not stop us from having some worthwhile discussions. Dr. Santos is a fun professor who is definitely knowledgeable about the subject he teaches.
5	This professor is highly effective in teaching the subject matter. He makes the subject interesting and encourages students to ask questions without patronizing students for not understanding a part of the lecture."
6	Great professor, learned many things I didn't know before. Would recommend to other students.
7	This course was very interesting and was a lot of information to take in. I thought about environmental aspects of life that could change the behavior of people I would have never considered before taking this class. Mr. Santos is a great teacher and is very good at keeping the class interesting for us so that we do not get bored. This is a class I can say that I genuinely like coming to.
8	The professor was very approachable and made the class environment very accessible to learn. I enjoyed every class; it was very informative and interesting. The professor was very knowledgeable on the subject and offered a lot of insight. Overall this class was a great learning experience and I would love to take another psychology class with this professor.

Question:	Please give suggestions, if any, for improving this course or the teaching effectiveness of this instructor.
Response Rate:	60.00% (6 of 10)

1	Try to follow the course schedule. But class was very fun, "so it makes up for it. "
2	In-class activities might be a good idea to utilize.

3	I believe this professor has an effective system to create a great learning environment."
4	No suggestions, Professor Santos is great.
5	I do not really know any possible suggestions for improving the class. Mr. Santos already seems he tries his best to make sure that we are alright with the class and that everyone is on track with their work. He always asks the the whole class how we are doing and if we need any help, so i really appreciate him as a teacher.
6	I think that the class was well organized and well thought.
